Measuring Instruments Regulations 2016

Type	Measuring Instrument	Procedure
MI005	**- Measuring systems for the continuous and dynamic measurement of quantities of liquid other than water:** **- Fuel dispensers (not for liquefied gases) (Accuracy Class 0.5)**	Module F
MI006	**- Automatic weighing instruments**	
	Mechanical systems **- Automatic catch weighers (Category X and Y)** **- Automatic gravimetric filling instruments** **- Discontinuous totalisers** **- Continuous totalisers** **- Automatic rail weigh-bridges**	Module F
	Electromechanical systems **- Automatic catch weighers (Category X and Y)** **- Automatic gravimetric filling instruments** **- Discontinuous totalisers** **- Continuous totalisers** **- Automatic rail weigh-bridges**	Module F
	Electronic systems or systems containing software **- Automatic catch weighers (Category X and Y)** **- Automatic gravimetric filling instruments** **- Discontinuous totalisers** **- Continuous totalisers** **- Automatic rail weigh-bridges**	Module F
MI008	**- Material Measures**	
	- Material measures of length	Module F1
	- Capacity serving measures	Module A2 Module F1
