Inspection performed at/from the above address only

DETAIL OF ACCREDITATION

Field of Inspection	Type and Range of Inspection	Methods and Procedures
Boilers and pressure vessels	Design verification	National and International Codes and Standards
	New construction inspection and certification	National and International Codes and Standards
Welding Procedures and Welder Qualification Tests	Verification and Approval	TUV UK Internal Procedure
"Procurement Inspection" Inspection of components and materials associated with pressurised and unpressurised vessels and tanks	New Construction	Customer Requirements and Internal TUV Procedures
Major, intermediate and minor pressure systems	In-service inspection Certification of written schemes of examination	Pressure System Safety Regulations 2000 SI No.128
	Inspection of repairs and modifications	Pressure System Safety Regulations (Northern Ireland) 2004 SI 222
	In-service Inspection	
	Certification of written schemes of examination	
	Inspection of repairs and modifications	
Lifting equipment (including powered and manual lifting appliances & lifting accessories) Including: Tower Cranes	In-service inspection and preparation of written schemes of examination	Lifting Operations and Lifting Equipment Regulations 1998 SI 1998, No. 2307 (UK & NI) Internal TUV Procedure

0033 Type A Inspection Body Accredited to ISO/IEC 17020:2012	**Schedule of Accreditation** **issued by** **United Kingdom Accreditation Service** 2 Pine Trees, Chertsey Lane, Staines-upon-Thames, TW18 3HR, UK **TUV UK Limited** **Issue No:** 029 **Issue date:** 27 October 2026
Inspection performed at/from main address only	

Field of Inspection	Type and Range of Inspection	Methods and Procedures
Equipment and components destined for use in the nuclear industry. Geographic locations – UK and manufacturing worldwide coordinated from the UK	Steam generators, pressure vessels, piping components, pumps and material Safety components Sub-assemblies, whole assemblies and systems with or without safety devices Design Verification and Inspection of new products and modifications and their subsequent modification.	UK Pressure Systems Safety Regulations 2000 Section 4 (Design and Construction) and Section 5 (provision of information and marking) UK Regulations for Nuclear Installations. Codes and standards: - RCC-M Regulations
